Notice of Fee Increase on January 1, 2003

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after January 1, 2003, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on January 1, 2003. See Revision of Patent and Trademark Fees for Fiscal Year 2003; Final Rule, 67 Fed. Reg. 70847, 70849 (November 27, 2002).

The current fee schedule is accessible from: <http://www.uspto.gov/main/howtofees.htm>.

If the issue fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due," but not the correct amount in view of the fee increase, a "Notice to Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice to Pay Balance of Issue Fee," if the response to the Notice of Allowance and Fee(s) due form is to be filed on or after January 1, 2003 (or mailed with a certificate of mailing on or after January 1, 2003), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

DETAILED ACTION

1. The text of those sections of Title 35, U.S. Code not included in this section can be found in the prior office action.
2. The prior office actions are incorporated herein by reference. In particular, the observations with respect to claim language, and response to previously presented arguments.
3. Claims 1, 11 and 20 are amended.
4. Claims 1-20 are pending.

Response to Arguments

Applicant's amendment filed 03/18/03 have been fully considered and is persuasive, as the feature of providing from said sender a sender id, a sender password, and all said receiver ids to a security server; receiving at said sender a message key and a message id which is unique for said e-mail message from said security server; mailing said secure e-mail to said receivers wherein said secure e-mail itself is not communicated to or via said security server differs from McArdle et al 's e-mail system and methodology for messaging server-based management.

Allowable Subject Matter

5. **Claims 1-20** are allowed.

Art Unit: 2132

6. The following is an examiner's statement of reasons for allowance: McArdle et al (6,442,686 B1) teach encryption of e-mail message based on a message key and enclosing an message id to form a secure e-mail; wherein the message id, message keys are stored in a server to be received by the receiver and transmitting the message between the sender and the receiver wherein the message consist of a body field and wherein the message received is decrypted using the message key and wherein the message parts are encrypted according to encryption policy.

Hussey teaches message format includes various field such as sender's address field, receiver's address field, subject field, other receiver's address field, body field and also draws conclusion that other fields may be added to the message format such as owner's login id's or task identifier.

Therefore the prior art, taken singly or in combination does not teach or suggest the relationship between these features:

A method and system for sending a secure e-mail, comprising the step of :

- composing an e-mail message by a sender, wherein said e-mail message includes a representing at least one intended receiver;
- providing from said sender a sender id, a sender password, and all said receiver ids to a security server;

Art Unit: 2132

- receiving at said sender a message key and a message id which is unique for said e-mail message from said security server;
- encrypting said body field of said e-mail message based on said message key and enclosing said message id therewith to form the secure e-mail at said sender;
- mailing said secure e-mail to said receivers wherein said secure e-mail itself is not communicated to or via said security server; and
- storing said message id, said message key, and all said receiver ids at said security server, to allow said security server to provide said message key to said receivers so that they may decrypt the secure e-mail **as recited in independent claims 1, 11 and 20.**

Dependent claims 2-10 and 12-19 are allowable as being dependent upon Independent claims 1 and 11 and having additional allowable features therein.

Conclusion

7. Any comments considered necessary by the applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submission should be clearly labeled "comments on statement of reasons for allowance."
8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kambiz Zand whose telephone number is (703)
